

*You will find our crematory facility and equipment clean, spotless and no surprises.*

BEST FACILITY & EQUIPMENT.  
WE WELCOME COMPARISON.

Our equipment is modern, meticulously maintained and available for inspection anytime. You will find that our exterior, interior and operational standards are consistent and we adhere to a higher standard than any other cremation provider. Although other funeral homes offer cremation they are little more than middlemen, mere jobbers who drop a person at the crematory, leave and never actually perform or even witness the cremation itself. We are a private crematory and contracting with us means that ***your loved one never leaves our care.*** If you use any other area funeral home for cremation services your loved one will end up at one of the 3 only other area choices which are all represented in this brochure. The decision is yours.

All transfers are personally handled by us with our own equipment. No jobbers. No middlemen. No casket delivery trucks.
